Packing material roll stands	890 511-49P

Fully functioning packaging area

Whether you handle, wrap, pack or unpack big or small materials and items, they need to be stored, lifted, or brought via a belt conveyor system to the packing table and removed from the workstation.

To create a fully functioning packaging area, Treston's offering also includes a variety of trolleys, cabinets and shelves which are an integral part of a good packing environment. Treston packaging tables, together with industrial complementing furniture, help you maximize production and speed up the packaging process. Also, don't forget chairs and good lighting – both elements which complete a well-functioning packaging station.

All Treston furniture and both packing table designs take into account ergonomic aspects, enabling you to keep all packaging materials within easy reach. Both TPB918 and Concept are made according to the highest quality standards.
